Greetings,

First of all, we want to say welcome back to our students! We are looking forward to seeing everyone at school.

We want to let parents know that Student Services will be offering individual and group counseling services for our students. Counseling services are also available to students who are doing offsite learning.

If you have concerns as a parent about your child and want them to receive support at school, please contact either of us. In the first few weeks of school we are going to be sending out a brief survey to students asking about their comfort level with returning to school. We want students to feel safe and supported as we start off this school year.

If you have questions or want to opt your child out of the survey, please contact us.

Thank you.
